

ACO READINESS PROJECT

The North Carolina Society of Anesthesiologists (“NCSA”) is proud to announce its ACO readiness project and the acclaimed “Anesthesiologist’s ACO Toolkit©”.

The Toolkit is the product of a year’s worth of work from the NCSA ACO Work Group and the Society’s General Counsel, Bo Bobbitt of Smith Anderson. The NCSA is excited to offer this extraordinary member benefit. The Toolkit outlines the steps practices will need to take to engage in ACOs.

Along with the Toolkit, the Society will offer:

- A webinar this fall
- Live presentations and panels at the NCSA Annual Meeting on ACO development
- One hour of legal consultation per practice regarding ACO formations

The NCSA leadership encourages all members to take advantage of these resources. Please feel free to contact Maeve Goff, Executive Director with questions (mgoff@smithlaw.com or (919) 838-2027)
