

## **AA / CRNA Anesthesia Outcomes**

University Hospitals of Cleveland

Date: October 26, 2003

### **Methods**

We queried the PAD (Perioperative Anesthesia Database) for all intraoperative and postoperative events.

### **Period**

March 15, 1999 – May 1, 2003

### **Dataset**

The Dataset is inclusive of all reported data from March 15, 1999 to May 1, 2003, inclusive.

### **Results**

Total number of cases recorded with AA/CRNA:	46,845
Total number of cases involving an AA:	23,137
Total number of cases involving a CRNA:	23,708

### **Outcomes**

Complication rates were no higher for AAs than CRNAs.

### **Notes:**

Risk factors associated with patient population and types of procedures are roughly comparable for both groups at this institution.
